About Us

Kera Dine Healthwares LLP is a leading manufacturer of 100% biodegradable and compostable molded bagasse tableware and sustainable packaging solutions. We transform renewable sugarcane bagasse into premium-quality products that are durable, food-safe, and environmentally responsible.

With advanced manufacturing technology and stringent quality standards, we produce a wide range of plates, bowls, meal trays, containers, and custom packaging for the food service, hospitality, retail, and packaging industries.

APPLICATIONS

THAT SERVE EVERY NEED

The Sustainable Choice

NATURE. INNOVATION. RESPONSIBILITY

At kera Dine , sustainability is at the heart of everything we do. We transform sugarcane bagasse-an agricultural-by-product - into high-quality, compostable tableware and packaging that cares for people and protects our planet.

OUR SUSTAINABLE JOURNEY

BETTER FOR YOU. BETTER FOR THE PLANET.

100% BIODEGRADABLE

Breaks down naturally without harming the environment.

100% COMPOSTABLE

Returns to the earth as nutrient-rich compost.

SAFE & NON-TOXIC

Free from harmful chemicals and coatings.

FOOD SAFE & RELIABLE

Suitable for hot and cold foods. Microwave & freezer safe.

A STEP TOWARDS A GREENER FUTURE

Helping businesses reduce plastic waste and build a sustainable future.

Why Industry Leaders Choose Kera Dine

Eco Friendly

Biodegradable materials that reduce environmental impact without compromising performance.

Food Safe

Hygienically manufactured and tested to be completely safe for direct food contact.

Premium Quality

Sturdy, leak-resistant and finished to a standard that reflects well on your brand.

Bulk Orders

Production capacity built to comfortably fulfil large, recurring hospitality orders.

Fast Delivery

Efficient logistics network ensuring your stock arrives on schedule, every time.

Affordable Pricing

Competitive, transparent pricing structured for long-term business partnerships.

100% Satisfaction

Dedicated support and consistent quality that keeps clients ordering season after season.

Sustainable Future

Committed to practices that support a cleaner, greener food-service industry.
